Early Childhood Education Majors

Charter Oak State College's online associate and bachelor's degrees equip early childhood education students to make a positive difference in the lives of young children. At the A.S. level, students gain skills to implement developmentally appropriate practices in classrooms or family child care homes servicing children ages birth to 5. At the B.S. level, students acquire advanced understanding of theory and practice and are prepared to mentor new teachers.

Students enrolled in the Bachelor of Science Early Childhood Education major must choose from one of five concentrations Charter Oak offers. These are designed to develop skills and knowledge to address the physical, cognitive, intellectual, language, social/emotional, and creative needs of young children in a variety of early childhood settings.

The Early Childhood Education Concentration Options

(choose one)

- **Early Childhood Teacher Credential (ECTC)** track is for current or prospective teachers that desire to work in any Connecticut state-funded Early Childhood Program. Two 6-credit field experience/practicum courses are required.
- **Infant and Toddler** track is designed for students who desire to work with infants/toddlers or currently serve as teachers or assistant teachers in infant/toddler classrooms. A 6-credit student teaching practicum is required. Students enrolled in this concentration may work in private early childhood centers, family child care homes, or military child development centers. It ensures those working with the 0-3 population are knowledgeable of best practices in the care and education of this unique population.
- **Preschool** track is ideal for those who desire to work as preschool teachers or who currently serve as teachers or assistant teachers in private or non-funded preschool classrooms. This track prepares teachers to work with children ages 3-5 so they understand developmentally appropriate practices in preschool education.
- **Montessori** students may specialize in Montessori infant and toddler or early childhood education. The practicum experience is embedded within the Montessori training and therefore not required as an additional practicum for this concentration.
- **Program Administration and Leadership** track is for those currently working as program directors/assistant directors or for teachers or other professionals seeking to advance to program director positions. Students learn the many facets of leadership that encompass the early childhood director's job. Students gain an understanding of curriculum, how to work with families, human resources, and fiscal responsibilities.

Early Childhood Education Programs

Early Childhood Education, Associate of Science (61 Credits)

- Introduction to Early Childhood Education
- Health, Safety & Nutrition: Birth to Eight
- Diversity & Ethics in Early Childhood
- Early Language & Literacy Development
- Observation & Assessment in Early Childhood Programs

Academic Requirements

Associate of Science Degrees

- Requires 61 credits. Thirty (30) credits must be liberal arts and the general education requirements must be met.
- Students enrolled in this degree are exempt from the Global requirement and must complete either the U.S. History/ Government or Non-U.S. History or Culture requirement.
- Electives added to General Education to bring total credits to 61.

Bachelor of Science Degrees

- General Education: Minimum of 40 credits
- Major: Minimum of 36 credits
- Elective Credits: To bring the total to 120 credits
- 30 credits must be at the upper level
- At least 30 of the 120 credits need to be in liberal arts subjects

Academic Residency

Cornerstone: All students must successfully complete the three-credit Cornerstone Seminar (IDS 101) usually during their first term.

Capstone: Students preparing to graduate with a bachelor's degree must complete a Capstone experience at Charter Oak State College with a grade of "C" or higher.

General Education Requirements

Our general education credit requirements promote strong communication and critical thinking skills that prepare you for career success. Our general education requirements include:

- Ethical Decision-Making (3 credits)
- Global Understanding (3 credits)
- Literature and Fine Arts (3 credits)
- Mathematics (3 credits)

- Natural Science (7-8 credits, one course with lab)
- Non-U.S. History or Culture (3 credits)
- Oral Communication (3 credits)
- Social/Behavioral Sciences (3 credits)
- U.S. History/Government (3 credits)
- Written Communication (6 credits)

Our Liberal Credit Transfer Policy

One of the many advantages we offer is liberal acceptance of credits from a variety of sources including:

- online and classroom-based courses taken at regionally-accredited institutions – usually regardless of when earned.
- college-level examinations such as CLEP and DANTES.
- military training and occupations.
- portfolio assessment of life and work experience.
- corporate/agency training evaluated by ACE/National CCRS.
- corporate/agency training and licenses and certifications evaluated by Charter Oak.
- CDA, AMS credentials.

Do you need to advance your qualifications to do your best work? Our certificate programs are perfect for early childhood professionals seeking continuing education and career advancement opportunities. There is no need to be a matriculated student for these convenient online 8 or 15-week courses. See www.CharterOak.edu/Certificates to learn more about –

- Speech and Language Pathology Studies Certificate
- CDC – Connecticut Director's Credential

"Finishing my degree at Charter Oak State College was the most amazing experience. From the initial enrollment meeting, the application process, to the final degree, I was guided step by step. The advisors were hands on and attentive, always willing to answer my questions. Without the ability to complete my education online I would never have completed my Bachelor's degree. As a single parent working a full time job this program helped me to be able to accomplish the goals I set for myself."

Tina Valentin, Program Director, Early Learning Center

Advance your Career... Change your Life

Charter Oak State College is Connecticut's public online college offering associate and bachelor's degree programs in a number of high-demand fields including Early Childhood Education, Child Studies, and Paraprofessional Studies. Our students complete degrees and certificates by taking online courses and combining other sources of credit. Our institution is accredited by the New England Commission of Higher Education.

"When I started Charter Oak State College I was a mom of one and a wife working as an infant room teacher. I needed a college that would work with my schedule and be useful for my career. I obtained both my associate degree and my bachelor's degree in Early Childhood Studies from Charter Oak. The school was a great experience because the staff understood that as adults we have a life outside of school and they were willing to help any way they could. This helped me start my career in an infant room, move to employment in Hartford Public Schools, then to acceptance into an ARC program to become a teacher, all because I chose Charter Oak State College's Early Childhood Studies program. I have been able to apply all the material I learned throughout my years in the program to my current position."

Tracey Josey, Para Educator, Environmental Magnet School
