*Charter Oak State College is an Educational Member of the International Accreditation Council for Business Education (IACBE), and has affirmed its commitment to excellence in business education.

Inquire today at CharterOak.edu/masters

“Charter Oak just makes sense for busy adults to earn a needed degree. Charter Oak customizes programs to the customer ... the active adult who wants to complete a degree in a no-nonsense way.”

“Best option to incorporate credits from another school and avoid redundant classes and additional expense.”

“Charter Oak was a perfectly sized institution; not so small that course offerings were limited, and not so big that you couldn't talk to a real human being when you called ... it is 'right sized,' allowing professors, counselors, and staff to know their students and help them through challenging circumstances. It's the niche Charter Oak holds over other institutions.”

“Charter Oak allowed me to continue in my military career while pursuing my degree despite frequent training deployments and military commitments, not only here in the United States but at several overseas locations as well.”

“There is so much that HIM professionals can do to greatly improve health care just by coordinating that care among entities, all without needing to see patients directly. The work that needs to be done and the opportunity I saw to make a big difference is what attracted me to this degree.”
