June 2023
GENERAL PROGRAM INFORMATION

The Nursing Program Student Handbook is a guide to the standards and practices of the COSC Nursing: RN/ADN to BSN (Nursing) Program. The Nursing Program is offered under the auspices and infrastructure of Charter Oak State College and the Nursing Program Student Handbook exists to support the specialized needs of the students, faculty, and staff of the Program. Please refer to the Charter Oak State College Official Catalog for general college policies applicable to all students.

Students are required to review and abide by the contents of the Nursing Program Student Handbook each academic year or upon re-entry into the program. Students are also required to keep abreast of pertinent information provided through the MyCharterOak Student Portal. Students are required to complete an orientation to the Nursing: RN/ADN to BSN Program either live or online; see the MyCharterOak Student Portal, Nursing Program page for the most recent student orientation presentation. A signed Nursing Program Student Handbook Acknowledgement of Receipt and Agreement to Comply (Appendix G) must be submitted through Castle Branch each year by the second Monday in September by every student in the program.

Mission, Vision, and Philosophy for the Nursing: RN/ADN to BSN Program

The Charter Oak State College (COSC) online Nursing: RN/ADN to BSN Program is designed to provide a quality, affordable, seamless, diverse, and accessible option for registered nurses prepared at the associate degree (AD) or diploma level to progress to the baccalaureate degree in nursing. The Nursing Program has been designed to meet the recommendations of the Connecticut Articulation Model for Nurse Educational Mobility (CLN, 1992, 2014), established at the urging of the Connecticut state legislature in 1992 to maximize opportunities for nursing educational advancement.

Consistent with the mission of COSC, the Mission of the Nursing: RN/ADN to BSN Program is to facilitate academic progression of registered nurses (RNs) in partnership with employers to meet the healthcare workforce needs in Connecticut and beyond. Effective academic/workforce partnerships assist RNs to reach their goals and aspirations to improve health within the communities served.

In combination with the core nursing discipline courses, the strong liberal education component of the Nursing Program is designed to help students acquire specific skills and knowledge to enhance critical thinking, communication, ethical decision making, and information literacy. The program has been designed to minimize redundant educational requirements between the AD or diploma and the baccalaureate in nursing. The Vision of
the Nursing: RN/ADN to BSN Program is to be a personally and professionally rewarding academic program of choice for RNs seeking to advance their education. The COSC Nursing: RN/ADN to BSN Program fosters diversity, innovation, quality, and excellence. As lifelong learners, COSC Nursing: RN/ADN to BSN graduates enhance their impact upon the lives of those they care for, their communities of practice, and the profession of nursing.

The COSC Nursing: RN/ADN to BSN Program Philosophy:

Building upon the strong foundation of AD and diploma nursing preparation the COSC Nursing: RN/ADN to BSN Program philosophy is grounded in the metaparadigm of nursing, and a belief in dynamic, professional relationships between students, patients, peers, members of the interprofessional healthcare team, and faculty. The nursing metaparadigm describes the roles of the nurse and directs professional practice. The metaparadigm includes four concepts, the Person*, the Environment, the Nurse, and Health. The Person is considered within Environments of care where the Nurse promotes Health and manages illness in partnership with the Person and the interprofessional health care team.

The COSC Nursing: RN/ADN to BSN curriculum is guided by local, regional, and national standards and trends within healthcare, higher education, and the nursing discipline. Organized through the integration of the Massachusetts Nurse of the Future Nursing Core Competencies (NOFCC, 2016), the curriculum is designed to meet the Essentials of Baccalaureate Education for Professional Practice (AACN, 2008).

Role of the Baccalaureate Nurse

Beginning in 2013, Connecticut’s leaders in nursing education and practice adopted the Massachusetts Nurse of the Future Nursing Core Competencies (NOFCC, 2016) to clarify the gaps in the education between nurses prepared at the associate and baccalaureate degree levels (Beauvais, et al., 2017). Committed to the preservation of the associate degree as an entry into professional nursing practice and 80% BSN by 2020, research was undertaken in Connecticut to explore best practices for RN/ADN TO BSN education and to determine the ways in which the state’s most recent AD graduates were advancing to the BSN (Perfetto, 2015; Perfetto, 2018; Perfetto & Orsolini, 2019; Perfetto, 2019). The research evidence and the gap analyses were both applied to develop the COSC Nursing: RN/ADN to BSN Program as an effective solution to the essential academic progression of associate degree nurses.
Baccalaureate nursing education is currently guided by the *Essentials of Baccalaureate Education for Professional Practice*\(^*\) (AACN, 2008). The nine essentials guide the work of nursing academicians with their students in baccalaureate programs:

I. Liberal Education for Baccalaureate Generalist Nursing Practice
II. Basic Organizational and Systems Leadership for Quality Care and Patient Safety
III. Scholarship for Evidence-Based Practice
IV. Information Management and Application of Patient Care Technology
V. Healthcare Policy, Finance, and Regulatory Environments
VI. Interprofessional Communication and Collaboration for Improving Patient Health Outcomes
VII. Clinical Prevention and Population Health
VIII. Professionalism and Professional Values
IX. Baccalaureate Generalist Nursing Practice

Essential IX describes generalist nursing practice at the completion of baccalaureate nursing education.

The ten *Massachusetts Nurse of the Future Nursing Core Competencies* (NOFCC, 2016) provide the framework for the curriculum and assure that graduates are able to meet the *Essentials of Baccalaureate Education for Professional Practice* (AACN, 2008). The competencies addressed throughout the program are:

1. Patient-Centered Care
2. Professionalism
3. Leadership
4. Systems-Based Practice
5. Informatics and Technology
6. Communication
7. Teamwork and Collaboration
8. Safety
9. Quality Improvement
10. Evidence Based Practice

\(^*\)The AACN released the re-envisioned Essentials in April 2021. AACN acknowledges that the pathway to fully implementing the new Essentials will be an extended process that may take three years or longer. The COSC nursing faculty are immersed in this revision at this time.
End-of-Program Student Learning Outcomes

While providing nursing care to individuals, families, groups, communities, and populations within the health care system, COSC Nursing: RN/ADN to BSN Program graduates:

1. Demonstrate a strong foundation in evidence-based nursing practice through purposeful, informed, outcome-oriented thinking and action that reflects a commitment to lifelong learning.

2. Utilize and apply knowledge, critical thinking, and clinical decision-making skills to make sound clinical judgments that identify and address individual, population, and organizational challenges.

3. Integrate leadership skills of systems thinking, communication, and change facilitation to meet patient care and organizational needs across the continuum of care.

4. Guided by the acquisition of a liberal arts education, utilize an ethical framework to advocate for patients amid economic, political, social, and demographic forces affecting the delivery of regional, national, and global health care.

5. Integrate determinants of health and patients’ cultural beliefs and practices into the delivery and management of care to promote health across the lifespan.

6. Interact using effective communication skills with patients, families and interprofessional team members that fosters mutual respect and shared decision making to enhance patient satisfaction and health outcomes.

7. Apply evidence-based practice models to identify and integrate scientific evidence to address practice issues and assure quality nursing care outcomes.

8. Advocate for and participate in patient safety and quality initiatives as a member of the interprofessional healthcare team.

9. Utilize informatics and patient care technology to enhance communication in the provision and management of safe, effective patient care.

10. Incorporate professional nursing standards and accountability into practice as a member of the interprofessional healthcare team.

Program of Study

In addition to nursing professional standards, requirements for the Charter Oak State College Nursing: RN/ADN to BSN Program conform to the requirements of the college. College requirements assure that students attain the Liberal Education required for

June 2023
Baccalaureate Generalist Nursing Practice (AACN BSN Essential I), gain the knowledge and skills to succeed in the program, further develop their potential, and enhance their capability to engage in a lifelong process of learning. More in-depth information can be found at: https://www.charteroak.edu/catalog/current/undergraduate-degree-requirements/; https://www.charteroak.edu/catalog/current/undergraduate-degree-requirements/gen_ed_requirements.php; and https://www.charteroak.edu/catalog/current/undergraduate-degree-requirements/ug_academic_residency_requirements.php.

The Charter Oak State College Nursing: RN/ADN to BSN Program of Study can be accessed at: https://www.charteroak.edu/catalog/current/undergraduate-programs-bachelors/nursing.php. Information about the courses in the Nursing Program of study can be accessed at: https://www.charteroak.edu/syllabus/.

**Nursing: RN/ADN to BSN Program Goals**

In keeping with the program mission, vision and philosophy and the mission of the college the Nursing: RN/ADN to BSN Program seeks to achieve the following goals:

**Graduation Rate:**
75% of students will complete the nursing program within 5 years of starting the nursing courses

**Program Satisfaction:**

- The mean rating of overall student satisfaction with learning experiences in the nursing courses will be 4.0 or above on a scale of 1-5 over each academic year.
- 80% or more of program graduates responding to the Graduation Survey will report their overall satisfaction with Charter Oak as Very Satisfied or Satisfied.
- 80% or more of program graduates who respond to the Graduation Survey and indicate they are planning to attend graduate school, indicate that their Charter Oak education prepared them Well or Very Well.
- 80% or more of program graduates who respond to the Graduation Survey indicate their level of competency in one or more areas within the Personal Skills Assessment® as Very Competent, Competent, or Somewhat Competent at graduation

June 2023
Job Placement/Performance:

- 85% or more of program graduates who respond to the Graduation Survey report that earning a Charter Oak degree has resulted in one or more career-related changes.
- 85% or more of program graduates who respond to the Graduation Survey report that the Charter Oak Experience has enhanced their job skills.

*Areas Assessed on the Personal Skills Assessment: writing & speaking effectively; critical thinking; analyzing & using Information; making ethical decisions; understanding of US history & government, history and culture of other countries, literature and fine arts, people, groups, & society, mathematics, and science & the scientific method; and global understanding.

Approval and Accreditation

The Nursing: RN/ADN to BSN Program at Charter Oak State College is accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington, DC 20001, 202-887-6791. The Charter Oak State College Nursing: RN/ADN to BSN Program is also licensed and accredited by the Connecticut Board of Regents for Higher Education.

ACADEMIC POLICIES AND REGULATIONS

Charter Oak Nursing: RN/ADN to BSN students must be aware of the Charter Oak State College Academic Policies and Regulations prior to enrollment in the program. In addition to the general academic policies and regulations of Charter Oak State College, additional standards and practices are applicable to students in the COSC Nursing program. Individual course policies and expectations are found in course syllabi and may be more stringent.

Registered Nurse Licensure Requirement

Licensure as a registered nurse (RN) in good standing (unencumbered) in any U.S. state or territory is required for all students in the Nursing: RN/ADN to BSN Program. Applicants who have not yet received their RN license, but meet all other admissions requirements, will be permitted to enroll in the college for one semester. Students must submit proof of RN licensure to their Castle Branch account by the end of the first semester of enrollment in the program. To meet requirements for continued enrollment throughout the program, students must update their RN licensure in Castle Branch prior to expiration.
Following the initial verification of a student’s unencumbered RN license, it will be verified at additional points in the program:

1. Prior to engagement in the practicum experience in NUR 320
2. Prior to engagement in the practicum experience in NUR 495

It is the student's responsibility to inform the Nursing RN/ADN to BSN Program director of any encumbrance of their RN license outside of the required assessment times. Students for whom an unencumbered RN license cannot be verified will be required to withdraw from the Nursing Program but may continue enrollment in the college in another degree program if they meet requirements.

Whether or not they hold an unencumbered RN license in a US state or territory, students admitted to the program who graduated from an Associate Degree or Diploma in Nursing Program that does not hold national accreditation (i.e. through ACEN or CNEA), must successfully complete IDS101 and NUR 301 on the first attempt.

**Attendance Policy**

The practicum courses in the COSC Nursing: RN/ADN to BSN Program (NUR 320 and NUR 495) have specific attendance requirements. These requirements can be found within the course syllabi.

**Course Transfer Policy**

COSC Nursing: RN/ADN to BSN students may transfer in two (2) nursing courses from another RN/ADN to BSN Program with grades of ‘C’ or above, provided the credits are equivalent in content and credit value and were earned at another regionally accredited institution which also holds a national Nursing Program Accreditation (i.e. CNEA, ACEN, CCNE).

Select courses in the Nursing: RN/ADN to BSN Program have mandatory assignments to assist students to prepare for the practicum experiences in NUR 320 and NUR 495. Students receiving transfer credit for any nursing courses will be required to complete these assignments as deemed necessary.

**Course Grading Policy**

A grade of C (73.0-76.9) or above is required for all nursing (NUR) courses. Students must achieve a Level of Performance of Satisfactory (4) on each Practicum SLO on the Practicum Evaluation by the end of the practicum experience to pass the practicum component of NUR 320 and NUR 495. Students who are unsuccessful in the practicum component of a nursing course will receive a grade of F for the entire course regardless of performance in other areas of the course. In these cases, students will be afforded the
opportunity to repeat these courses once, pending assessment of their readiness in collaboration with course faculty, academic counselors, and the program director. Consult NUR 320 and NUR 495 course syllabi for more specific information.

**Course Repeat Policy**

COSC Nursing: RN/ADN to BSN students are required to repeat a nursing (NUR) course if they receive a final course grade lower than a C. Both attempts of the course will appear on the transcript. The most recent grade will be calculated into the grade point average and will be applied to the degree. Students are advised to contact Financial Aid prior to repeating a course.

If a COSC Nursing: RN/ADN to BSN student fails (C- or below) or withdraws from (W or AW) a Nursing (NUR) course, the student must retake the course. If the student fails (C- or below) or withdraws from (W or AW) the course a second time, the student will be dismissed from the Nursing Program but may continue their studies in another major if they meet requirements.

**Grade Appeal Process**

Nursing: RN/ADN to BSN students who wish to appeal a course grade should follow the Charter Oak State College grade appeal procedures found at [https://www.charteroak.edu/catalog/current/academic_policies_regulations/grade_appeal_procedures.php](https://www.charteroak.edu/catalog/current/academic_policies_regulations/grade_appeal_procedures.php).

**Graduation Requirement**

The COSC Nursing: RN/ADN to BSN Program must demonstrate that students complete the degree within a reasonable span of time. Students will receive academic counseling to support completion of the Nursing Program within 3 calendar years. In order to support this rate of completion an individualized plan of study will be designed for each student in collaboration with their academic counselor. The plan of study will prescribe an order for the completion of general education and nursing course requirements to achieve an acceptable work-life-school balance consistent with student success. Students must be aware that in addition to the completion of all nursing Major Requirements and Liberal and General Education requirements for the BSN must be met prior to enrollment in NUR 495.

**Inactive Student Policy**

COSC Nursing: RN/ADN to BSN students must show evidence of academic progress. Consistent with the college policy [https://www.charteroak.edu/catalog/current/academic_policies_regulations/inactive_student_policy.php](https://www.charteroak.edu/catalog/current/academic_policies_regulations/inactive_student_policy.php) in the absence of evidence of academic progress (i.e. by taking courses at

June 2023
Charter Oak, submitting any transcripts for courses taken elsewhere, standardized examination score reports, or prior learning evaluations) for two consecutive semesters (excluding the summer term), the student will receive a letter from the Registrar’s Office notifying the student that progress needs to be demonstrated. If no transcripts, score reports or confirmation of Credit for Prior Learning (CPL) have been received by the deadline date established, the student will be administratively withdrawn from the Nursing Program and the college. If the student wishes to return, they will need to go through the application process and will be required to meet current degree requirements.

STUDENT RIGHTS AND RESPONSIBILITIES

Non-discrimination Statement

The COSC Nursing: RN/ADN to BSN Program abides by the Charter Oak State College Policy of Nondiscrimination, compliant with all applicable federal and state laws. Please refer to this policy for guidance.

Office of Accessibility Services

The COSC Nursing: RN/ADN to BSN Program is committed to the goal of achieving equal educational opportunities and full participation in higher education for persons with disabilities who qualify for admission to the program and college. As an online institution, Charter Oak is uniquely positioned to work with students using a variety of modalities and is able to serve students with a wide range of disabilities. In order to receive accommodations, a student must be registered with the Office of Accessibility. To find out more about accommodations or to request services, visit the Office of Accessibility website at https://www.charteroak.edu/current/services/accessibility.php.

Student Advisement

Each student is assigned an academic counselor for guidance related to the Nursing: RN/ADN to BSN Program. It is advised that students contact their assigned academic counselor at least once a semester to review their plan of study and discuss strategies for success. The COSC academic counselors provide access to information and resources pertinent to the student to support progression in the program. Through the help of academic counseling, students in the Nursing Program are connected with resources and opportunities available through the college to assist them in meeting their academic and career goals.

Students should seek the advice of the Nursing: RN/ADN to BSN Program Faculty related to nursing course requirements. The MyCharterOak Portal, Nursing Program page is a helpful source of information about the program and requirements. Should a student seek
additional information and direction they are free to contact the Nursing: RN/ADN to BSN Program Director at any time.

**Program Costs, Tuition, and Fees**

Information about program tuition, fees, and financial assistance can be found at [https://www.charteroak.edu/catalog/current/fees_financial_aid_scholarships/](https://www.charteroak.edu/catalog/current/fees_financial_aid_scholarships/). In addition to COSC tuition and fees, expenses for students in the Nursing Program may include specific learning resources, travel and parking fees, and requirements to engage in practicum experiences such as immunizations, toxicology screening, and criminal background checks. The college utilizes Castle Branch, Inc. to track mandatory program requirements, thus students are required to establish a Castle Branch account; related instructions are on the [MyCharterOak](https://mycharteroak.charteroak.edu) Portal, Nursing Program page.

**Academic Honesty**

A fundamental tenet of all educational institutions is academic honesty; academic work depends upon respect and acknowledgement of the research and ideas of others. Students in the COSC Nursing: RN/ADN to BSN Program are expected to integrate and apply the standards of the most recent *Publication Manual of the American Psychological Association* (APA) to all aspects of the writing process.

Because Charter Oak State College is a nontraditional college, and the student’s work is done at a distance, upholding academic integrity is of utmost importance. Charter Oak State College expects its students and faculty to uphold high standards of academic honesty in their scholarship and learning.

**Plagiarism**

Charter Oak uses electronic monitoring to assist students to avoid plagiarism and to check students’ papers for the same. Currently Charter Oak is using the plagiarism detection software accessible through the Blackboard Learning Management System (LMS), known as SafeAssign. When a paper is submitted to SafeAssign for review, the paper becomes part of the SafeAssign database. For instance, if the paper has already been submitted to SafeAssign, SafeAssign will check the students’ paper against its database of existing works and submitted assignments and calculate the percentage of similarity.

SafeAssign will be utilized in the nursing courses to assist students with the development of scholarly writing skills. SafeAssign is utilized to assist Students to avoid sanctions associated with plagiarizing threaded discussions, written, and oral assignments. Please review the sanctions associated with incidences of plagiarism that are described in

---

June 2023
the Charter Oak State College catalog, as well as the Academic Integrity Procedure for Charter Oak State College.

When the classroom component of courses in the nursing program incorporates structured group assignments, students must be aware that all group members have equal ownership and responsibility for the end-product submitted. In this case, all group members receive the same grade for the assignment and are equally accountable to standards of academic honesty applied to the entire submission.

**Student Conduct**

In general, Charter Oak State College and the Connecticut Board of Regents (BOR) for Higher Education have the obligation and right to institute appropriate disciplinary action when a student ignores or fails to act in accordance with applicable codes of conduct. The BOR/CSCU Student Code of Conduct provides the procedures for the investigation, definitions of terms, and resolution of complaints regarding student conduct, including those involving sexual misconduct. Students should refer to the related policies, standards and practices at

https://www.charteroak.edu/catalog/current/student_rights_responsibilities/student_code_conduct.php and

As registered nurses, COSC Nursing: RN/ADN to BSN students not only represent themselves but also the Nursing Program and the trusted nursing profession. COSC Nursing: RN/ADN to BSN students are expected to demonstrate and uphold professional behaviors according to the regulatory, legal, and ethical principles of the profession in both academic and practicum settings. As such, character and behavior consistent with the ANA Code of Ethics for Nurses with Interpretive Statements is required of students at all times, regardless of setting.

**Technology Requirements and Social Media**

Selected portions of the COSC Nursing Program curriculum are taught, reinforced, or reviewed using educational software, instructional media, publisher resources, computer programs, audio/video recordings, etc. Students are required to adhere to all copyright policies when using these resources.

Students are required to have access to the necessary technology (i.e. computer, webcam, etc.) to enable participation in all learning activities in the online courses in the
Nursing: RN/ADN to BSN Program. Please see college guidelines for technology requirements and assistance with technology through the college at https://www.charteroak.edu/bb/resources.php. Additional information is provided in Appendix B, Personal Technology Guidelines for COSC Nursing: RN/ADN to BSN Students. In addition, students should refer to college course syllabi for more specific requirements or information.

COSC Nursing: RN/ADN to BSN students are reminded that posts to any social networking or social media (i.e. Facebook, Twitter, blogs, Snapchat) must reflect the same behavioral standards of honesty, respect, consideration, and professionalism that are expected in academic and practice environments. In any social media posts or communications, students must adhere to restrictions related to privacy for fellow students, faculty, and clients/patients in accordance with the federal Health Insurance Portability and Accountability Act (HIPAA). Information related to practicum experiences must NOT be posted on any social media. Inappropriate use of social media by students is subject to disciplinary action up to and including dismissal from the program.

Students should review and refer to A Nurses Guide to the Use of Social Media made available through the National Council of State Boards of Nursing (NCSBN) and the American Nurses Association (ANA) Principles for Social Networking and the Nurse for additional guidance.

Request for Letter of Recommendation

Students requesting a letter of recommendation for prospective employers or for college or scholarship applications are required to complete a Faculty Recommendation Request Form (Appendix A) and submit it to the faculty member who will write the recommendation.

PRACTICUM EXPERIENCE AND AGENCY REQUIREMENTS

Overview of Practicum Experiences and Agencies

In the COSC Nursing: RN/ADN to BSN program students engage in practice experiences, known as practicum experiences, that afford the opportunity to apply knowledge and concepts integrated into each nursing course to practice. Two of the eight nursing courses, NUR 320 Population Health and NUR 495, The Baccalaureate Capstone integrate practicum experiences. Select courses in the Nursing: RN/ADN to BSN Program have mandatory assignments to assist students to identify practicum sites and to prepare for the practicum experiences in NUR 320 and NUR 495; these assignments must be completed to pass the courses within which they are assigned.

June 2023
As registered nurses aspiring to the level of the Bachelor of Science in Nursing, students are expected to self-identify practice sites that will enable them to meet the objectives of the practicum experiences in both courses. By the second term/course or in NUR 310, students are expected to have developed a verbal agreement with a site for the NUR 320 *Population Health* practicum, along with an Organizational Mentor who works at the organization and preferably holds a Bachelor of Science or higher degree in Nursing. Similarly, in NUR 315 students identify a practicum site, a site-based mentor, and explore a quality-safety improvement issue to address as the focus of their capstone project in NUR 495, *The Baccalaureate Capstone*.

Based upon their related work in NUR 315, students develop their first draft of a Letter of Intent (LOI) for their capstone project as a major course assignment in NUR 400. In NUR 494 students work with the faculty to finalize plans for their capstone project and obtain approval by their practicum site which is required prior to enrollment in NUR 495. In NUR 410 students align their capstone project with tenets of Transformational Leadership.

Students are encouraged to engage in practicum experiences within the organization they are employed, if possible. Students should be familiar with Appendix C, *Special Guidelines for Practicum Experiences within a Current Employer Setting* to minimize any associated challenges or conflicts.

College and program leadership make every effort to arrange a *Clinical Affiliate Agreement* or “contract” necessary for students to complete practicum experiences with sites identified by the student. There is no guarantee that a *Clinical Affiliate Agreement* will be reached to enable the student to complete their practicum experience(s) in the site(s) they identify, including the student’s employment site. Students are encouraged to track the progress of specific agreements, essential to engage in practicum experiences as a student in the Nursing Program, with their chosen practice site(s). It is the students’ ultimate responsibility to ascertain the existence of an agreement well in advance of their practicum experience(s).

If an agreement is not reached with the site(s) students identify, then the college will make every effort to secure an appropriate site for students impacted, provided there is adequate time/resources to establish. Students should be aware that the inability to secure a timely agreement with an appropriate practicum site will impact their ability to progress in the program.
Practicum Organizational Mentors

Students are expected to align themselves with organizational mentors at their designated practicum sites, who as employees of the practicum site will be in a position to support the student with their practicum projects. The guidelines developed for organizational mentors are applied to facility/organization employees designated to supervise the Nursing: RN/ADN to BSN student while engaged in related work within the facility. Though each student should have a site-based mentor to supervise their work within the organization while engaged in the practicum, the course faculty are responsible for the evaluation of the student with respect to the learning outcomes associated with the practicum. NUR 320 and 495 faculty seek the input of students’ site-based mentors related to the students’ progress with practicum projects.

Agency and Organizational Mentor Request Forms for the practicum experiences in NUR 320 and NUR 495 will be made available on the MyCharterOak Portal, Nursing Program Page. The Mentor Request Forms outline the roles and responsibilities of Organizational Mentors as follows:

1. Serve as an advisor to the student as needed to facilitate project goals.
2. Provide feedback to the student designed to enhance their ability to accomplish project goals.
3. Facilitate opportunities for learning within the scope of the organization and project goals.
4. Provide regular feedback to the designated Charter Oak Nursing: RN/ADN to BSN Program faculty related to the student’s progress and success with practicum projects.
5. Assist the student to arrange for a mutually convenient time to present their project to parties affiliated with the organization when concluded.
6. Notify the designated Charter Oak Nursing: RN/ADN to BSN Program faculty member with any concerns related to the project and/or the student.

Documentation of Practicum Site Requirements

In addition to meeting the requirements of the college, Nursing: RN/ADN to BSN students must demonstrate that they meet requirements of practicum sites in order to meet the requirements of the program (i.e. Criminal Background Checks, Toxicology Screening, Immunization Requirements, etc.). The college utilizes Castle Branch, Inc. to track these mandatory requirements.

All Nursing: RN/ADN to BSN Program students are required to establish an account with Castle Branch prior to enrollment in NUR 301. Related instructions are
provided to students upon enrollment in the program and are posted on the
MyCharterOak Portal, Nursing Program Page. Should student status change in a way that
would impact the ability to participate in practicum or other learning experiences in the
nursing program, students must notify the Director of the COSC Nursing: RN/ADN to BSN
Program immediately. In most cases documentation from a healthcare provider will be
required. The need for additional clearance will be determined at that time. Students should
be aware that this may impact the ability to progress in the program.

Health Requirements

The Charter Oak State College Immunization Exemption Policy
https://www.charteroak.edu/catalog/current/student_rights_responsibilities/immunization.php
does not apply to Nursing: RN/ADN to BSN students. Documentation of specific student
health requirements is mandatory prior to participation in any practicum experience.
Students are to utilize the COSC Nursing: RN/ADN to BSN student Health Assessment
Form (available in Appendix D and on MyCharterOak) as a guide and abide by procedures
for submission of the required health information through Castle Branch. Students are
required to follow all instructions for documentation of immunization status with the
required laboratory reports and the health care provider’s signature. Certain items may
require annual follow-up during the program (i.e. flu vaccine, Hepatitis B vaccination, TB
Testing). Failure to complete and submit requirements in accordance with the COSC
Nursing: RN/ADN to BSN student Health Assessment Form and Castle Branch by the
required deadlines may result in the inability to participate in practicum experiences.

Exceptions to the completion of the Health Assessment Form may be made for
students authorized to complete practicum experience(s) at their place of employment only
with authorization by a qualified representative of the employment site, currently available
to students who are Hartford Healthcare (HHC) employees and are completing both
practicum experiences at an HHC site. Please refer to Appendix D.

Students are asked to sign the COVID-19 Assumption of Risk and Release of
Liability as a condition of participation in practicum experiences. The required form is in
located in Appendix F.

Criminal Background Check & Toxicology Screening

Due to practicum affiliate agreements, criminal background checks and toxicology
(drug) screenings are required prior to participation in practicum experiences. Students
must follow instructions for obtaining criminal background checks and toxicology
screenings and utilize Castle Branch, the vendor adopted by Charter Oak State College.
Results of criminal background checks and toxicology screening do not become a part of the student’s educational record, as defined by the Family Educational Rights and Privacy Act (“FERPA”).

Exceptions to the completion of the Criminal Background Check & Toxicology Screening may be made for students authorized to complete practicum experience(s) at their place of employment, currently only available to students who are Hartford Healthcare (HHC) employees and are completing both practicum experiences at an HHC site, see Appendix D.

The following procedures and guidelines apply to criminal background checks and toxicology screening for any student:

1. Fees for all screenings must be paid by the student.
2. The need for additional screening/assessment beyond the initial screening/assessment is related to practicum affiliate requirements and/or results of the initial screening/assessment;
3. Notification and recordkeeping of toxicology screening results and/or criminal background checks are performed in a manner that ensures the integrity, accuracy and confidentiality of the information;
4. Students are not allowed to hand-deliver results of either toxicology screening or criminal background checks;
5. Students are required to sign a release for results of toxicology screenings and criminal background checks to be sent to Charter Oak State College.
6. Student refusal of either the background check or toxicology screening will result in dismissal from the Nursing Program due to the inability to complete practicum requirements.

**Criminal Background Checks**

Students who are found guilty of committing a felony and/or misdemeanor can be prevented from participating in practicum experiences per practicum facility policy. If a student is unable to be placed at a practicum site, the student will not be able to meet student learning outcomes. In this case, the Nursing Program Director will contact the student and provide an opportunity for the student to withdraw from the program. Refusal to withdraw from the program will result in dismissal from the Nursing: RN/ADN to BSN Program. Students have an on-going duty to inform the Director of the Nursing: RN/ADN to BSN Program of any conviction that occurs after the initial criminal background check and/or while they are enrolled in the Nursing: RN/ADN to BSN Program. Failure to report a conviction can result in dismissal from the Nursing Program.
Toxicology Screening

Positive toxicology screens can prevent students from participating in a practicum experience per affiliate contractual agreements. The following guides the response to a positive toxicology screening for any student:

1. All specimens identified as non-negative/positive on the initial test shall be confirmed, reviewed, and interpreted by the vendor;
2. The student is required to provide documentation by a healthcare provider in the event there is a medical explanation for a positive result (i.e. the result of a prescribed medication).
3. In accordance with federal law, a positive toxicology screen for legally prescribed marijuana can prohibit a student from being placed in a practicum setting that accepts federal funding.

   Toxicology screening results that require retesting include but may not be limited to:

   1. Vendor reports the screening specimen was diluted;
   2. If a student challenges a result, only the original sample can be retested.

If a student tests positive for drugs that are illegal substances, non-prescribed legal substances, or the student is deemed unsafe for the practicum setting by a healthcare provider, the student will be immediately dismissed from the Nursing Program.

   Readmission following dismissal from the program in response to a confirmed positive toxicology screen is subject to re-entry guidelines and the following conditions:

   1. The student provides documentation from a qualified healthcare professional indicating status of abuse, addiction, or recovery, and/or documented rehabilitation related to the alcohol/drug abuse;
   2. Documentation of a confirmed negative toxicology screen immediately prior to readmission; and,
   3. All other readmission/re-entry requirements are met.

Students may also be required to submit additional toxicology screening during the Nursing: RN/ADN to BSN Program in accordance with affiliate contractual agreements or when reasonable suspicion of impairment exists. Observations that constitute reasonable suspicion may place the student at risk for disciplinary action up to and including program dismissal. Reasonable suspicion screening may be a response to observations by faculty and/or staff to include, but not be limited to, the following:

   1. Physical symptoms such as slurred speech, unsteady gait, confusion or other manifestations of drug/alcohol use;
   2. Presence of an odor of alcohol or illegal substance;
   3. Abnormal conduct or erratic behavior during practicum learning activities, chronic
absenteeism, tardiness, or deterioration of performance during the practicum regardless of any threat to patient safety;

4. Suspected theft of medication(s including controlled substances while at the practicum facility; and

5. Evidence of involvement in the use, possession, sale, solicitation or transfer of illegal or illicit drugs while enrolled in the Nursing: RN/ADN to BSN Program.

**Basic Life Support (BLS) Certification**

COSC Nursing: RN/ADN to BSN Students are required to provide documentation of current health care provider training in Basic Life Support (CPR & AED) for the adult, child, and infant prior to beginning practicum experiences through their Castle Branch account. A training certificate can only be earned through the *American Heart Association* or the *American Red Cross* and must remain current throughout the Nursing Program. Failure to comply will result in exclusion from the practicum learning experience.

**Health and Safety Training**

COSC Nursing: RN/ADN to BSN students are required to successfully complete any training required by the practicum site prior to participation in on site learning. The successful completion of the online *CT Hospital Association (CHA) Health and Safety Training Course* and test is required prior to participation in practicum experiences in health care facilities in Connecticut. This assessment is performed through a designated Charter Oak State College Blackboard “course” and submitted through Castle Branch. Specific instructions are made available on the *MyCharterOak* Student Portal on the Nursing Program page.

**Confidentiality Agreement**

Students must submit the signed COSC Nursing: RN/ADN to BSN Program *Confidentiality Agreement for Practicum Experiences* in Appendix E prior to participation in practicum experiences. If a practicum site requires additional related documentation, students will be informed.

**Injury Insurance & Reporting Incidents**

All enrolled students are covered by a School Time Injury Only Insurance Plan. School time is defined as the time a student is attending classes or participating in and traveling directly to or from an activity sponsored by the College. Any student who sustains an injury at the practicum site must follow the policies of the institution and must report the incident to the course faculty immediately and complete appropriate forms per facility and
Professional Liability Insurance

Charter Oak State College provides professional liability insurance for Nursing: RN/ADN to BSN students while engaged in practicum experiences. Students should also consider purchasing additional professional liability insurance which is available at a reduced cost through membership in the American Nurses Association, the National Student Nurses’ Association, and/or other professional organizations.

Transportation & Parking

COSC Nursing: RN/ADN to BSN students are responsible for transportation to and from practicum sites. Students are subject to the parking regulations established by practicum agencies and are expected to park in designated areas only. If a violation occurs, the car may be towed at the student’s expense. Charter Oak State College is not responsible for travel, parking, towing expenses, or injury to property sustained at a practicum site.

Dress Code

Student apparel and grooming during practicum experiences must conform to health, sanitation, safety, professional standards, and practicum agency policies. Professional attire should also be worn when attending Charter Oak State College sponsored activities/events. Unless specific requirements are in place by the practicum site, COSC Nursing: RN/ADN to BSN students should choose business casual attire for the experience. Personal Protective Equipment (PPE) should be donned if appropriate per practicum site policies.

Faculty Signature: ____________________________________________

Please retain a copy of the recommendation for your files.
Appendix B

Personal Technology Guidelines for COSC Nursing: RN/ADN to BSN Students

Personal technology plays an important role in the current higher education environment. To enable participation in an online program, it is a requirement for students to own a personal computing device and have access to broadband internet.

The recommended device is a laptop or desktop computer. Netbooks and tablet computing devices do not have the computing power of a normal laptop or desktop computer, for this reason they are not recommended for use as a primary computing device.

All Connecticut State College and University (CSCU) students have access to the full Office 365 Professional suite of applications which requires one of the following operating systems for installation:

✓ Windows 10 (Professional, Education, Enterprise, or Home)
✓ macOS 10.14 (Mojave) or higher

These operating systems can only be run on a full laptop or desktop computer.

<table>
<thead>
<tr>
<th>Hardware recommendations for laptop or desktop</th>
</tr>

<tr>
<td>Hard Drive</td>
</tr>
<tr>
<td>Display</td>
</tr>
<tr>
<td>Webcam</td>
</tr>
<tr>
<td>Audio</td>
</tr>
</tbody>
</table>

Internet Access
High speed (broadband) internet access is also a requirement for the use of personal technology and access to online courses. Although some internet service providers (ISPs) label all their offerings as high speed, some of these services fail to meet the throughput requirements necessary for the online activities required for your courses. At this time, connection speeds of 6 – 10 Mbps (or higher) are suggested for typical educational activities like video streaming, teleconferencing, and file downloading (https://www.fcc.gov/consumers/guides/broadband-speed-guide?contrast=). Additionally, if using cellular wireless for data connectivity you should consider a plan with higher data caps (6 GB to unlimited monthly).

Web Browsers
Any of the web browsers below are suitable for use, although some websites may have specific requirements. In addition to their default browser, all students should have a secondary browser loaded for troubleshooting issues when they occur.

<table>

June 2023
Special Guidelines for Practicum Experiences within a Current Employer Setting

There are both benefits and challenges for a student completing a practicum within the setting in which they are currently employed. The faculty and program director of the Nursing: RN/ADN to BSN program believe that the benefits outweigh the challenges. For instance, a student would have a high degree of familiarity within their employer’s organization and may be able to negotiate a practicum arrangement with an employer with ease. Such an arrangement can benefit both the student and employer.

However, there are challenges in undertaking the practicum experience in the student’s place of employment. For instance, a conflict of interest may result if an individual is functioning as a student and a paid employee at the same time.

- A student may be pulled from practicum activity to staff their work setting or perform tasks that fall within their regular employment. For example, a student who engages in practicum activities may be directed to set the practicum work aside to function in their usual staff role.
- A student may have difficulty being viewed as a “student” in their own work unit. Other staff may be confuse the role of the student vs employee.
- Patients may be confused by a staff member who moves in and out of a student role on the same unit or setting.
- A practicum mentor may lack objectivity in mentoring and evaluating a student who is also a coworker on the same unit.
- A practicum mentor who is also a fellow employee may feel reluctant to offer constructive criticism, guidance, or honest evaluations of a student’s work or verification of his/her hours.
- Any tension in the mentor/student relationship may affect the work environment of each.

The following guidelines are designed to help avoid conflicts of interest or circumstances that could cause the student to be unable to meet all the requirements of the practicum.

Students may arrange to do their practicum within their employer's organization, but with these specific guidelines:

- Preferably, students should try not plan to conduct their practicum on the same unit where they are employed. Students should make every effort to engage in a practicum in a different unit or setting within their employer's organization.
- Students may not conduct their practicum activities when they are being paid by the employer for their customary work. Students CAN design their practicum hours to occur outside of their paid work hours.
- Students must clearly identify as students during their practicum activities and may not function as employees during practicum hours. For example, a student who is engaged in practicum hours cannot “fill in” for absent staff at the practicum site, carrying out the duties of the absent staff member versus engaging in their student learning objectives.

Students who are considering their employer’s organization as a practicum site should seek guidance and assistance from Nursing: RN/ADN to BSN faculty or the program director as needed.

Student Statement of Responsibility: All Students must Complete

I understand that I must submit a completed Health Assessment Form, complete a Criminal Background Check and Toxicology Screening and required Health & Safety Education (or meet exemption requirements as an employee of a Hartford Health Care (HHC) practicum site, see below) prior to participation in any practicum experiences and by the due date established.

I am aware that if my health status should change in a way that would impact my ability to perform in the nursing program, I must notify the Director/Administrator of the COSC RN/ADN TO BSN Program immediately. The need for additional clearance will be determined at that time.

Student Name (Please Print)    Student Signature    Date

HHC Employer Authorization of Exception:
For students who are Hartford Healthcare (HHC) employees and who will do both practicum experiences at a HHC site:

Exceptions to the completion of the Health Assessment Form and/or Criminal Background Check and Toxicology Screening, and/or Health & Safety Education may be made for students who are HHC employees and are approved to complete practicum experience(s) at a HHC site only with authorization by a qualified representative below.

I, the undersigned verify that the student above meets the following criteria (check those that apply below)

☐ Health Requirements
☐ Criminal Background Check and Toxicology Screening requirements
☐ Health & Safety Education

necessary to participate in practicum experiences as a COSC RN/ADN TO BSN student based upon employment at a HHC Site.

Confidentiality Agreement for Practicum Experiences

I hereby acknowledge that as a student in the Charter Oak State College Nursing: RN/ADN to BSN program I will have access to Protected Health Information while engaged in practicum experiences at practicum clinical and community-based sites for educational purposes.

Protected Health Information is information about any person’s health or treatment that identifies a person (as defined under the Health Insurance Portability and Accountability Act, “HIPAA”). I understand that Federal and State laws prohibit my use or disclosure of any such information that I may encounter while a student at any practicum site.

Furthermore, I understand and agree that I must maintain the confidentiality of all matters related to patients, the Health System/Organization, community-based sites/organizations and its employees, students, or volunteers. Specifically, this includes, but is not limited to, refraining from looking-up, disclosing, copying, altering or modifying any business, employee, volunteer, or patient records, materials, computerized data or any other form of information unless authorized to do so. I further understand and agree not to access and not to try to access any information other than that information which I have authorized access to and a need to know given my role in the course/program.

I understand that if I fail to abide by the terms of this Agreement and the applicable Federal and State laws and regulations protecting confidential information, I may be subject to disciplinary action, termination from the program and/or legal action.

I understand that I may direct to the related offices of Health System/Organization, community based site/organization HIPAA Privacy Office, and/or the Charter Oak Nursing: RN/ADN to BSN program faculty or program director any questions I have about my obligations under this Confidentiality Agreement or under any of the Health System/Organization, community based sites/organizations policies and procedures and applicable laws and regulations related to confidentiality.

Appendix F
COVID-19 ASSUMPTION OF RISK AND RELEASE OF LIABILITY

I, _________________________________, presently a student at Charter Oak State College wish to participate in practicum experiences in the Nursing: RN/ADN to BSN program. I understand that, as a condition of such participation, I am being asked to sign this COVID-19 Assumption of Risk and Release of Liability and that my doing so is an act of my free will.

By signing this document, I understand and agree to the COVID-19 requirements set forth below:

• Students are strongly urged to continue to follow the CDC guidelines that can be found at https://www.cdc.gov/coronavirus/2019-ncov/index.html?CDC_AA_refVal=https%3A%2F%2Fwww.cdc.gov%2Fcoronavirus%2Findex.html
• Students are strongly urged to avoid high-risk environments where they may be exposed to COVID-19 including large crowds (malls, planes, trains, buses, movie theaters), restaurants and bars, and gyms.
• Students are strongly urged to practice frequent handwashing followed by an alcohol-based gel/foam hand sanitizer such as Purell. Students who travel may require screening and a mandatory quarantine of 2 weeks following return.
• If you are feeling sick, please do NOT come to the Activity. If you are exhibiting signs of COVID-19, please notify your healthcare provider immediately and get tested.

I am aware of and understand the symptoms and risks of COVID-19. I also understand that there are risks and hazards directly or inherently involved in the Activity that may be present and may increase my risk of contracting COVID-19 despite taking all prescribed precautions. Despite these and other risks involved in participation in the Activity, I voluntarily choose to participate. I knowingly and freely assume all such risks, both known and unknown, even if arising from the negligence of Charter Oak State College, and agree to all requirements for returning.

In consideration for Charter Oak State College, permitting me to participate in the Activity, I hereby assume all the risks associated with such participation and I agree to hold the State of Connecticut, the Board of Regents for Higher Education, the Charter Oak State College, their employees, agents, representatives and volunteers harmless from any and all liability, actions, causes of actions, claims or demands of any kind and nature whatsoever, including those arising from the negligence of Charter Oak State College, which may arise by or in connection with my participation in any events related to the Activity and COVID-19. The terms herein shall serve as a release and assumption of risk for my heirs, estate, executor, administrator, assignees, and for all members of my family.

I have read the foregoing and fully understand its contents. I understand that by signing this COVID-19 assumption of risk and release of liability agreement, I will be giving up substantial rights and I sign this document freely and voluntarily without any inducement.

This document shall be construed in accordance with the laws of Connecticut, without regard to its principles of conflicts of laws.

CHARTER OAK STATE COLLEGE (COSC)
NURSING: RN/ADN to BSN PROGRAM

Nursing Program Student Handbook Acknowledgement of Receipt and Agreement to Comply

COSC Nursing: RN/ADN to BSN students are responsible for reading and complying with the information that appears in the current *Charter Oak State College Official Catalog*, and the 2023-24 *Nursing Program Student Handbook*. Students must complete an orientation to the Nursing: RN/ADN to BSN Program either live or online. The *COSC Nursing Program Student Handbook* is a guide to specific practice standards for the nursing program of study. Failure to comply with nursing program standards and practices will lead to a review of student behavior and possible disciplinary action, up to and including dismissal from the Program.

Charter Oak State College reserves the right to modify any statement in the 2023-24 *Nursing Program Student Handbook*. If changes are made, they will be provided to students through a *Nursing Program Student Handbook Addendum*. Regardless of entry date, students must abide by the COSC Nursing: RN/ADN to BSN Program Standards and Practices in accordance with the most recent edition of the *Nursing Program Student Handbook*.

I, __________________________, acknowledge receiving and reading the 2023-24 Nursing Student Handbook, and completing the orientation to the Nursing: RN/ADN to BSN Program either live or online.

I agree to comply with the standards and practices stated in the *Nursing Program Student Handbook*.

I acknowledge that prior to signing I have been provided the opportunity to seek further clarification.

I understand this statement will be placed in my nursing program student record.
